

Install guide

Chrome install guide

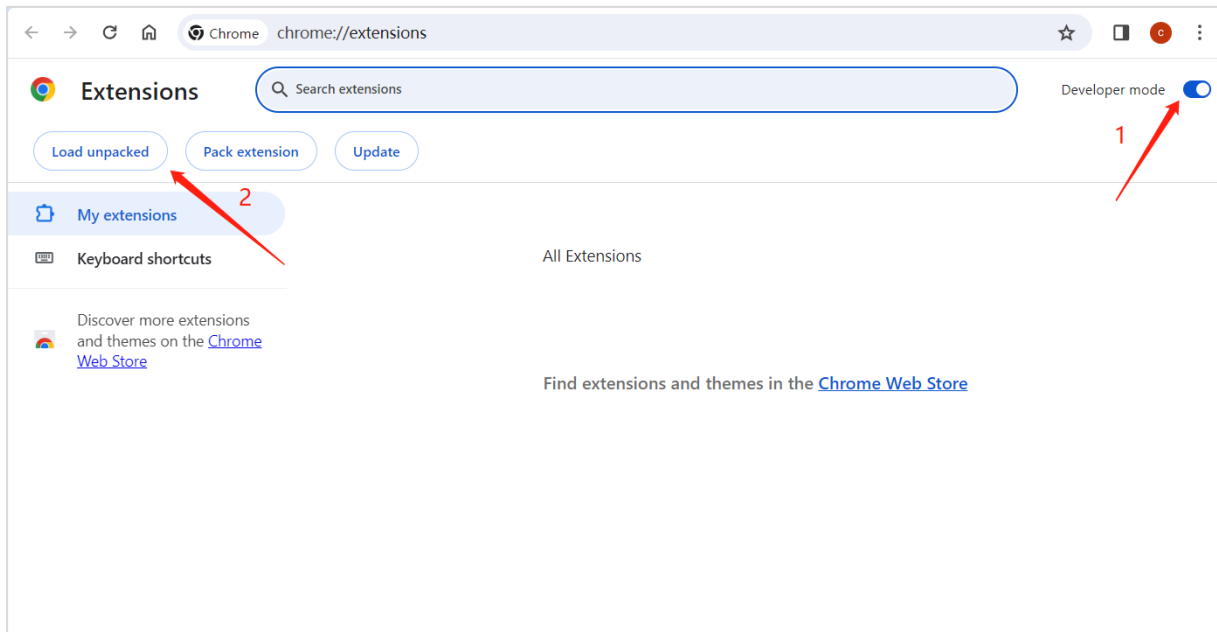

1. After downloading, first extract it and copy the "**Facebook Master (Chrome)**" file to the D drive. (Other disks are also available, as long as the files can be found during installation).

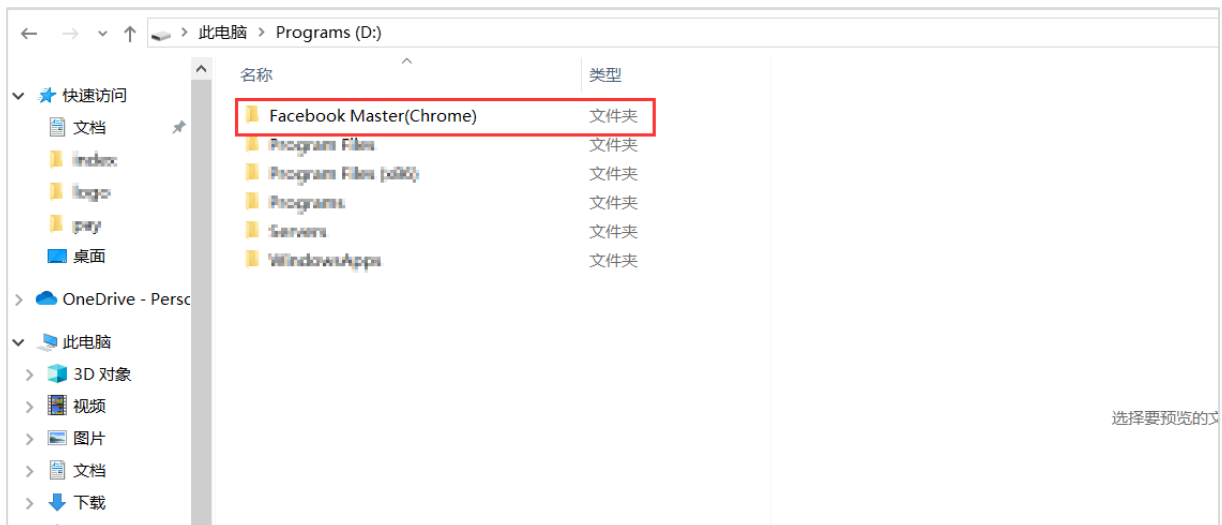

2. Open Chrome, go to the menu in the upper right corner → **Extensions** → **Manage Extensions**.

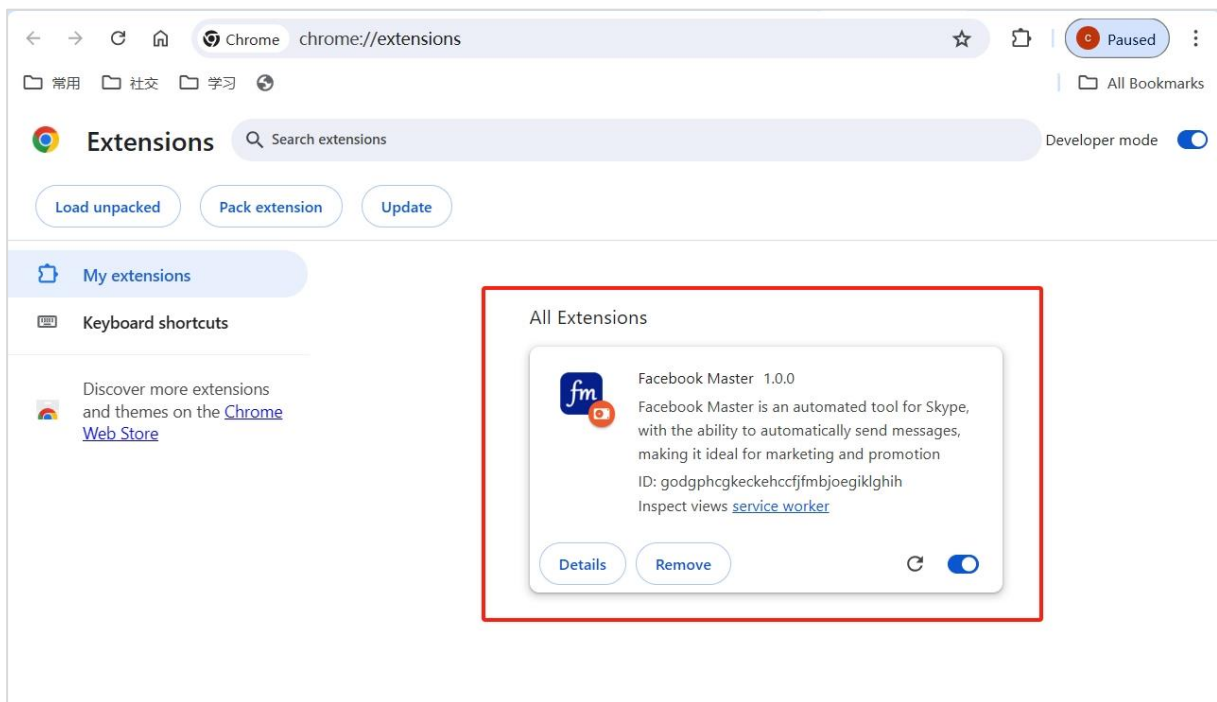

3. Firstly, open "**developer mode**" and then "**load unpacked**".

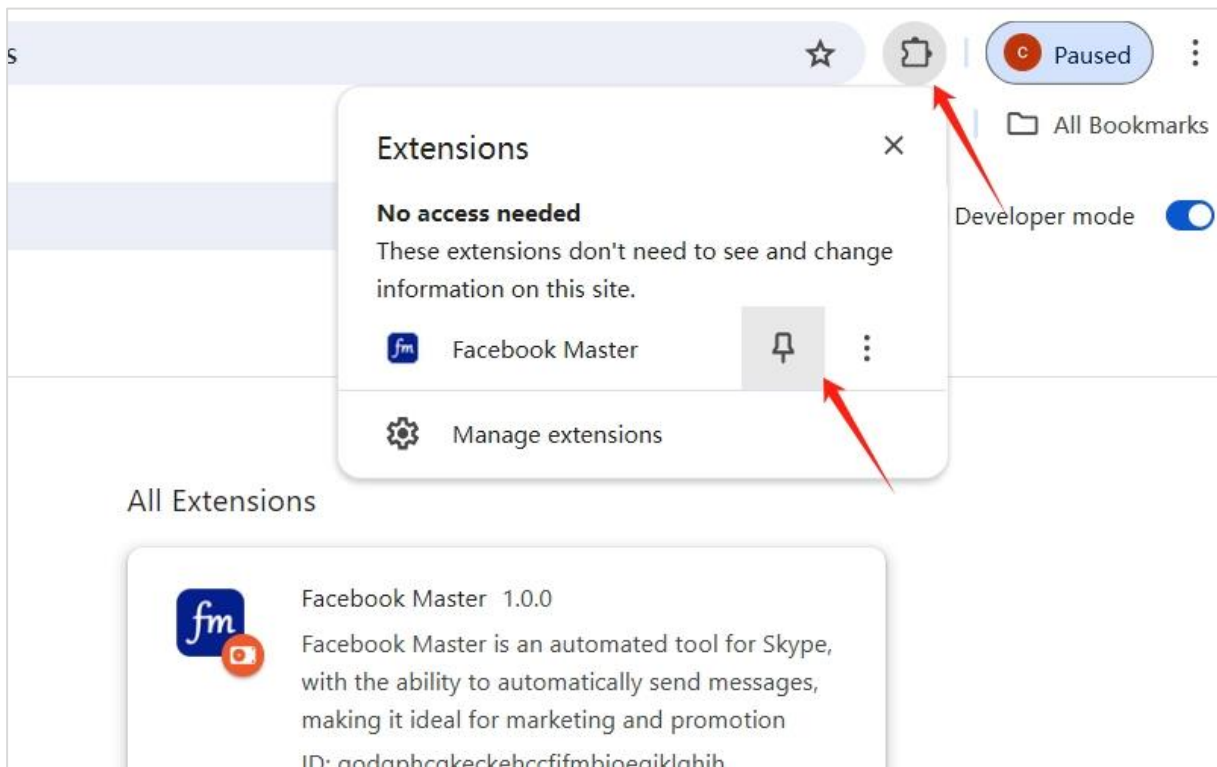

4. Select the "**Facebook Master (Chrome)**" folder that was just copied on the D drive (don't choose the wrong folder)

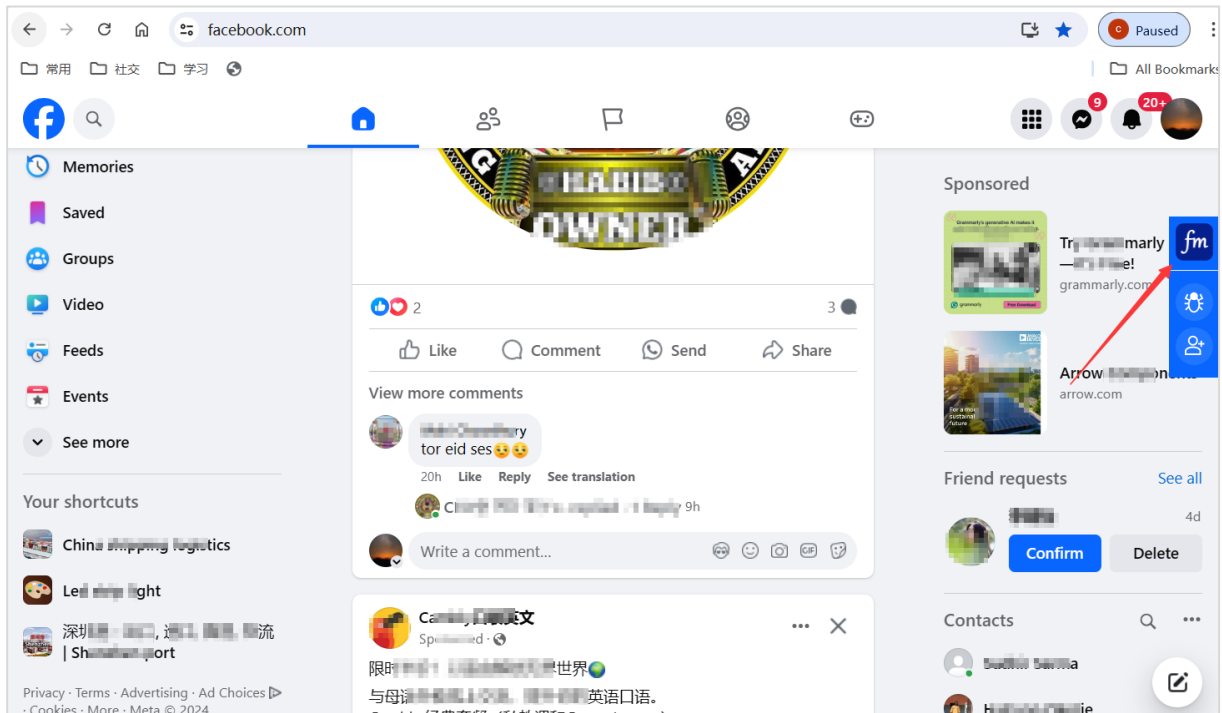

5. The following appears to indicate successful installation

6. At this point, the Facebook Master icon is not displayed in the upper right corner, just pin it

7. After installation, open the Facebook official website <https://www.facebook.com> You can use it now

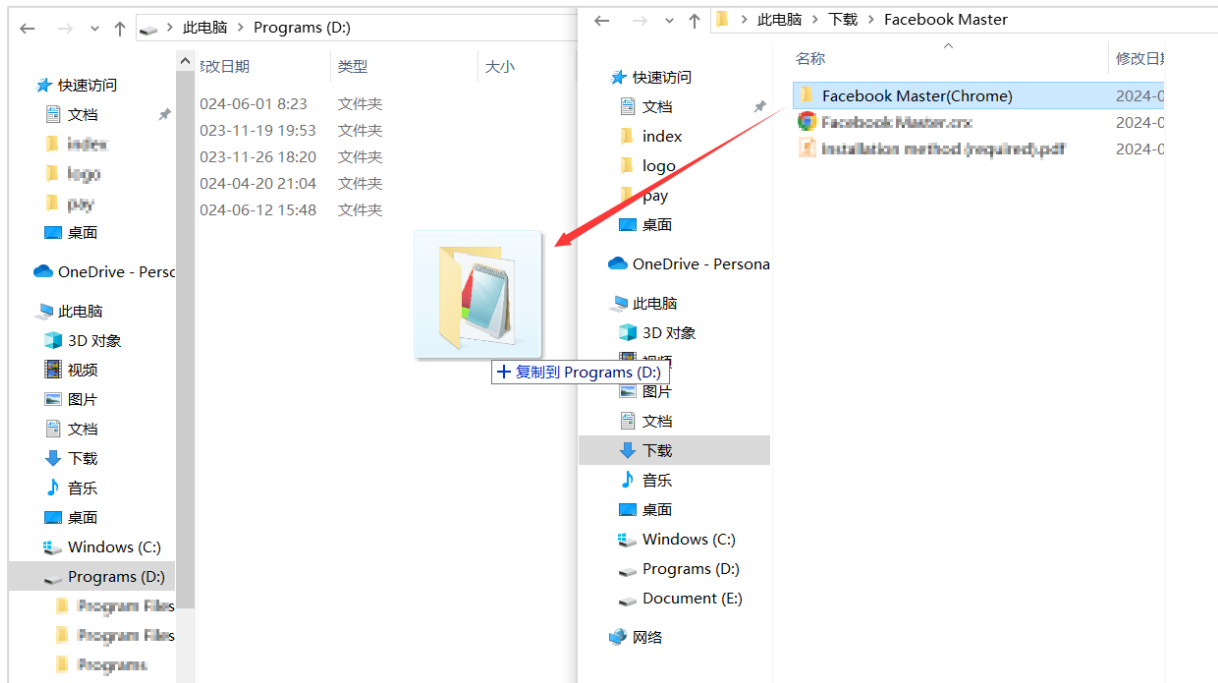

Note:

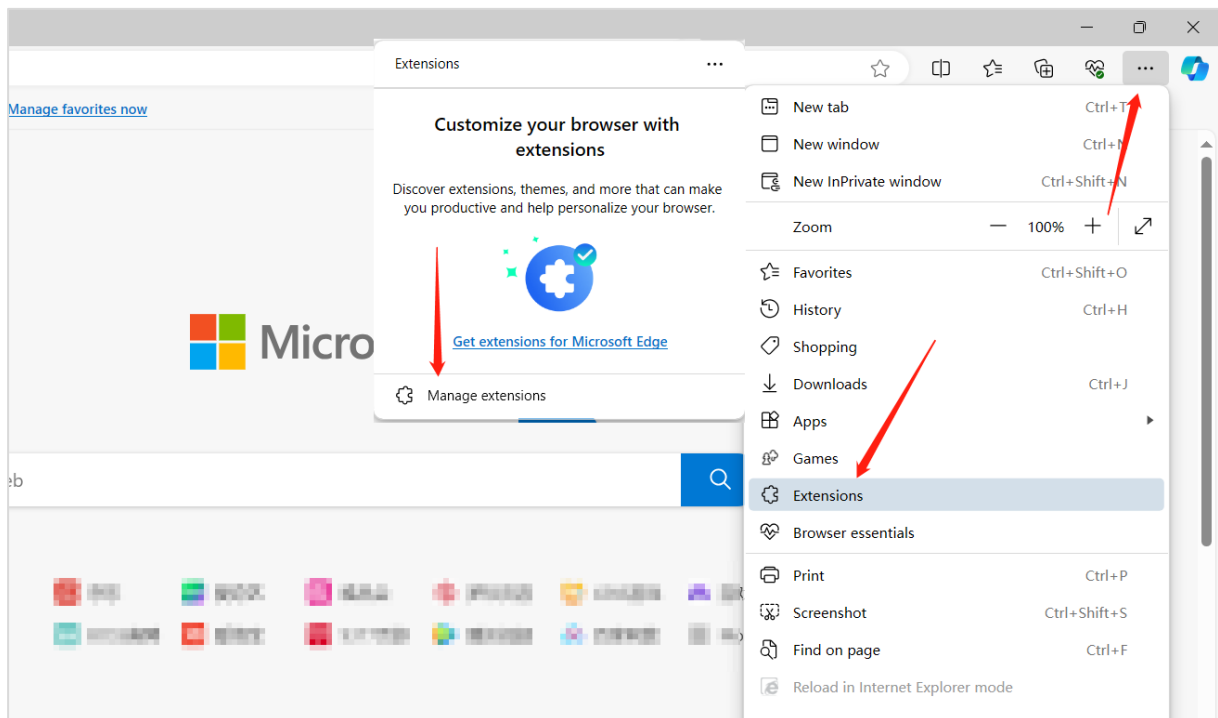

1. Do not delete the "Facebook Master (Chrome)" file copied on drive D.

Microsoft Edge Install Guide

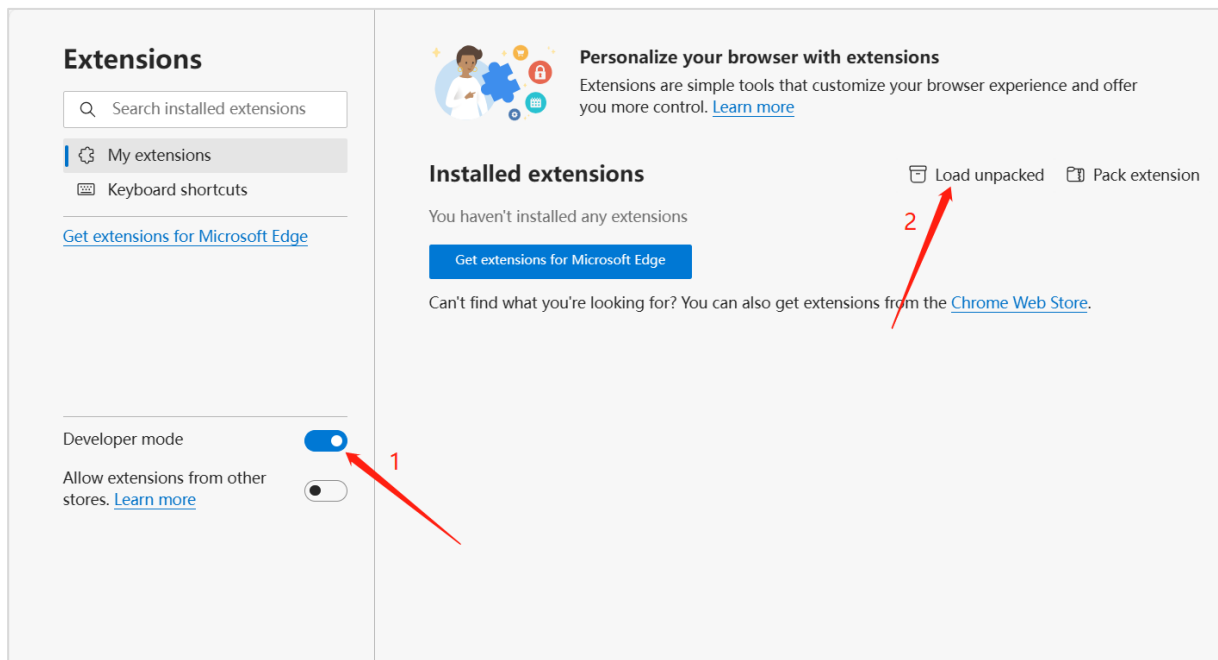

1. After downloading, first extract it and copy the "**Facebook Master (Chrome)**" file to the D drive. (Other disks are also available, as long as the files can be found during installation)

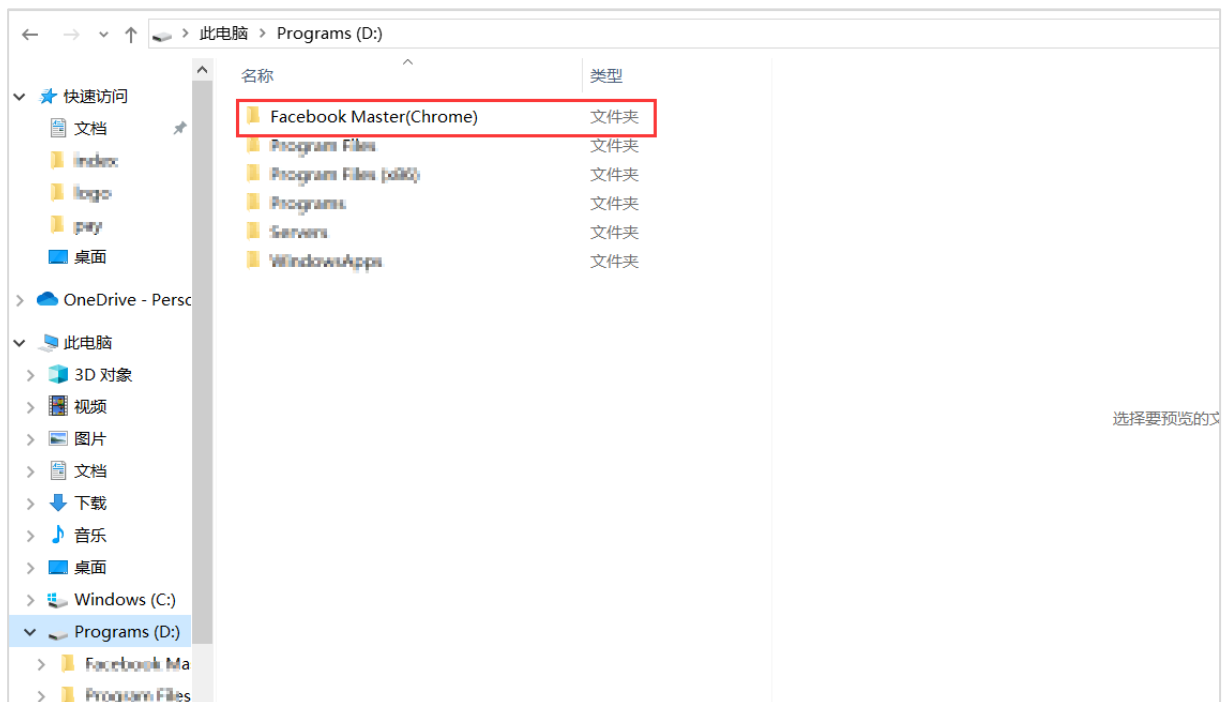

2. Open the Edge browser, select the menu in the upper right corner ->**Extensions**
->**Manage extensions**

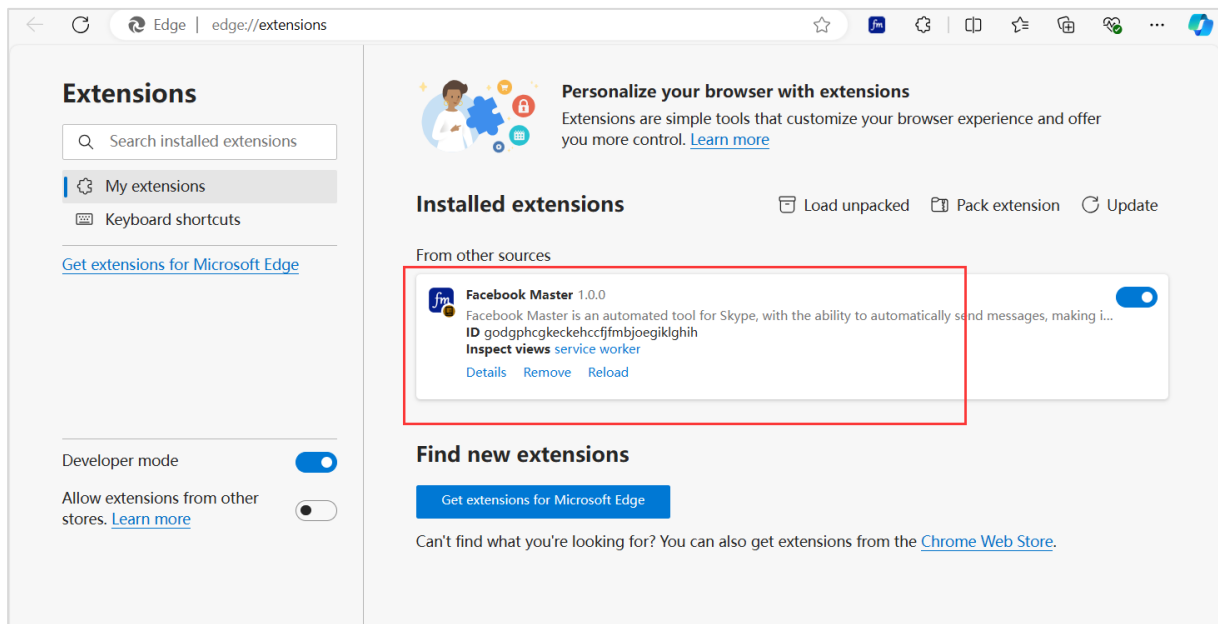

3. First, open “Developer mode” and then “Load unpacked”

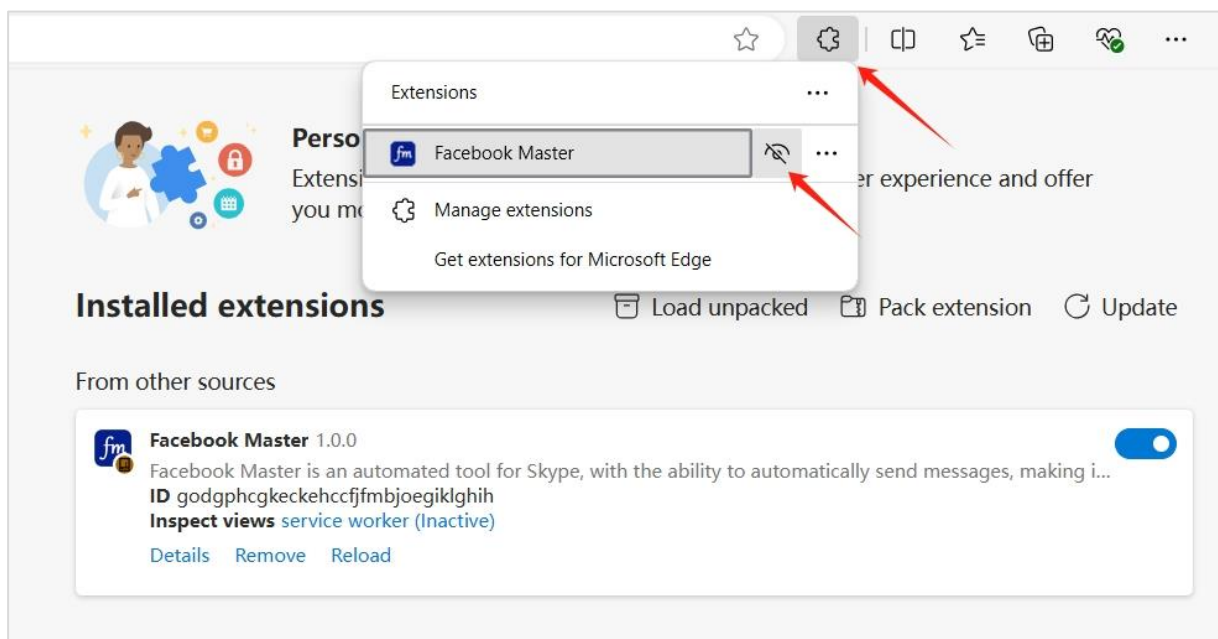

4. Select the “Facebook Master (Chrome)” folder that was just copied on the D drive (don't choose the wrong folder).

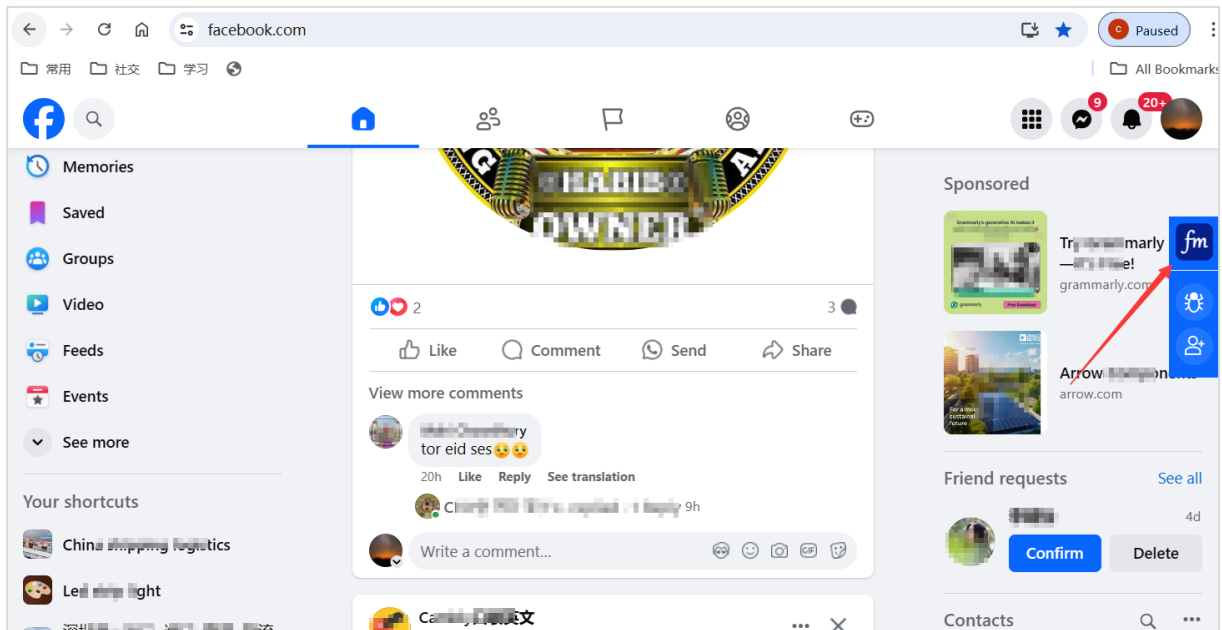

5. The **following** appears to indicate successful installation

6. At this point, the Facebook Master icon is not displayed in the upper right corner, just pin it

7. After **installation**, open the Facebook official website <https://www.facebook.com> You can use it now

Note:

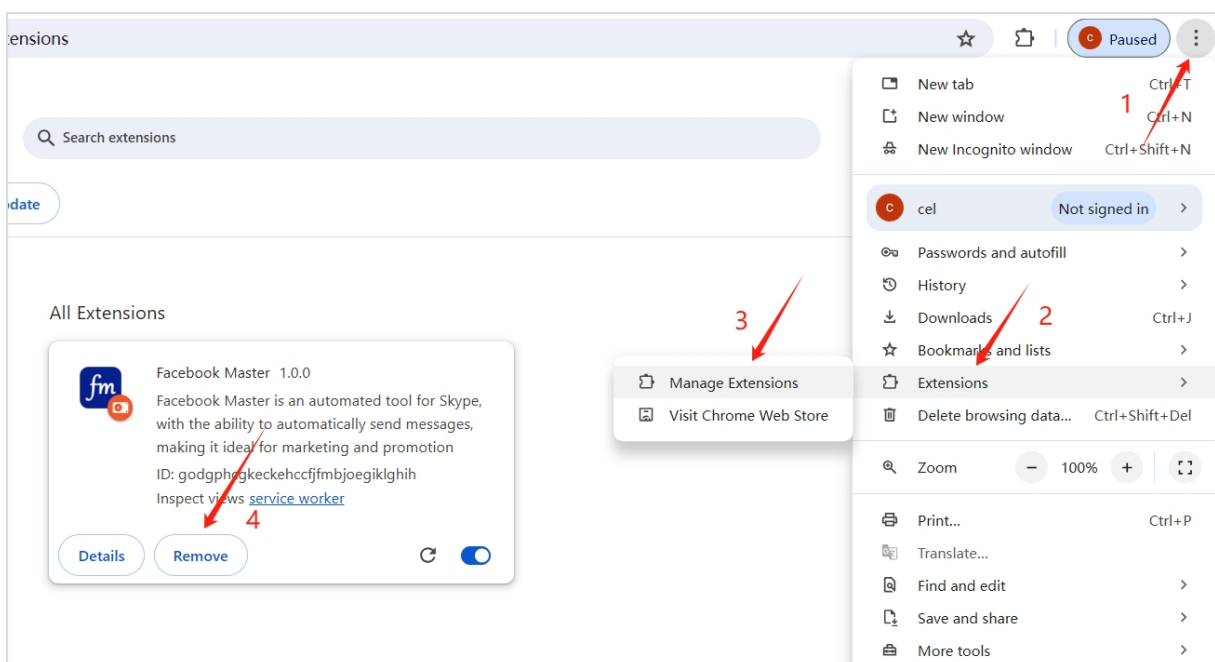

1. Do not delete the "Facebook Master (Chrome)" file copied on drive D.

Remove

If not used, you can choose to disable or remove.

Disabled: extensions and data will not be deleted;

Remove: The extension and data will be deleted.
